

Australian Kodály Certificate

Suggested Canons for sing/play preparation for advanced levels

The following is a list of suggested canons which are indicative of the given musicianship level. Participants are invited to prepare **two** of the canons in preparation for an upcoming course. Please note that participants who are attending a Kodály course for the first time are NOT expected to have this work prepared – sing/play materials will be presented during the course for first time attendees. This list is only a suggestion and delegates should expect to prepare additional material in the 10-day course as set by the lecturer. All of these canons are taken from the Classical Canons collection.
